

How we are going to reduce the risk to children in school

Your child will be in a class bubble.

Each bubble has a maximum of 30 children and 2 adults

Your child's bubble will not mix with children from any other bubble at all during school hours. This means that if there is an infection in one bubble, all other bubbles are protected.

Your child's bubble will have:

- It's own start time
- It's own teacher and teaching assistant
- It's own cleaning products
- It's own break time (socially distant games only)
- It's own lunch time (packed lunches for the first 2 weeks)
- It's own home time

Children may be sharing a toilet with other bubbles but not at the same time. One child will be in the toilets at any one time.

In their bubble, your child will have:

- Tables that are in rows and facing forward except for Reception children
- Their own books, stationery and resources

The school is only open **Monday to Friday**

- **All children must attend school**

We will be keeping your child's bubble as clean as possible by:

- Expecting all parents to keep to the 2m distance rule on the playground
- Emptying bins for tissues regularly throughout the day
- Cleaning surfaces regularly throughout the day
- Insisting on handwashing regularly throughout the day
- Undertaking a deeper clean at the end of every day
- Not allowing staff or children from other bubbles into your child's bubble

This will only work if you keep your child safe when they are not at school. Children who go out to play with other children will be a high risk to their bubble when they come back to school.

We can work together to reduce risk but not remove it.

Parents & Carers: How we need you to help us keep school safe

No school if there are ANY symptoms in your home

Children must wear their uniform everyday

Children can bring their PE kit to school

No other personal belongings such as pencil cases or big bags

Packed lunches in boxes only thoroughly washed everyday

Book bags can be brought in to school, children will receive reading books

Walk or Cycle:
This will avoid creating crowds trying to park cars near school.

Be on time:
This will reduce risk by keeping your child from mixing with other groups

No face masks in school.
If they are brought to school, they must go back home with an adult

Obey the special signs and markings around school. Doing this will keep all families safe.

Keep a safe distance from other families whilst waiting at the start and end of the school day.
